

# Online Reporting

## Better reports, clearer information

We value your business and are invested in your success. So we're offering you key business reports that make it easier to see and understand your benefits usage data.

Our Online Reporting tool gives you a flexible and responsive platform, 3 years' worth of data and allows you to compare benefit usage year over year.

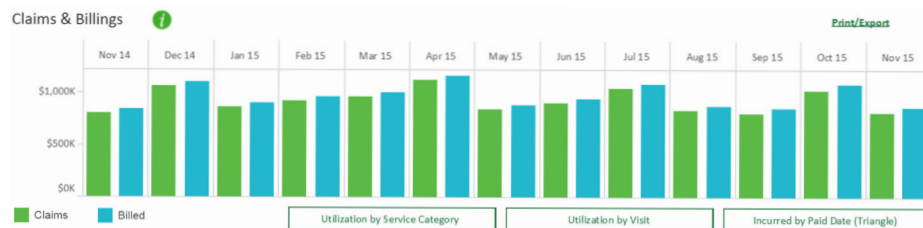

You can view data in two different ways:

- Download a comprehensive set of raw data for customized analysis

OR

- View a series of most-requested report graphs that allow you to analyze activity down to a highly detailed level and share data more easily

Online Reporting features:

- View reports showing benefits usage; detailed by state, group, sub-group, network and more
- View data graphs showing claims & billing, enrollment, network utilization and plan usage information
- Analyze year-over-year data and identify key trends as they happen
- Compare plan usage to Delta Dental's Book of Business (BOB)

We're excited to give you the capability to view and work with a wide range of reports, in the format of your choice, on demand.

Online Reporting is available to negotiated groups with 100 or more subscribers or producers who support those groups.

Need access to Online Reporting? Submit an Online Reporting Application & Change Form located on [DeltaDentalWA.com](http://DeltaDentalWA.com)

For more information, or to get started with our Online Tool, contact your Delta Dental Client Manager today.
